Movement to Allow Remarriage of Divorced Persons Defeated.

WASHINGTON Oct 18 - Important action was taken by the respective bodies of the Episcopal council here yesterday on two subjects, which have caused much discussion during the deliberations of those bodies. The house of bishops, in secret session, by a vote of 31 to 24, rejected propositions bearing on the subject of the remarriage of divorced per ons designed to take the place of those now in existence. The present canons on that subject therefore remain in force

In the house of deputies, after a dehate which has continued for several days, a step in the direction of church unity was taken. The desussion of this subject was participated in by the offering of an amendment to the constitution by the Rev Dr. Huntington of New York. While agreeing with the principle of this the deputies finally decided to adopt a briefer amendment offered by Mr. Faude of Minnesota as

"But provision may be made by canon for the temporary use of other forms and directories of worship by congregations not already in union with this church who are willing to accept the spiritual oversight of the bishop of the diocese."

The amendment, if adopted by the bishops, will go to the dioceses for action and must be passed upon by the next general convention before it becomes operative.

Riots in Ireland.

DUBLIN, Oct. 18.-There was great excitement all night long Sunday at Ballinrobe, County Mayo, due to serious collisions between the people there and the police, owing to the United Irish league meeting, announced for Sunday evening, being proclaimed. About 20.4 000 people assembled, and Messrs, Michael Davitt and William O'Brien, who were to be the speakers, were met outside the town by a detachment of 200 police and were prevented from entering the place. The police were forced to charge the crowds frequently during the night, and many persons were in-

PARIS, Oct. 18.—The Duchess of Sutherland, wife of the lord president of the council of British ministers, while on board a train for Calaia. bound for London, lost a satchel containing jewelry worth \$39,000. Her grace left the train at Amiens and returned here to report her loss to the police. It is believed that the satchel was stolen, but there is no clew to the EMBASSY AT CONSTANTINOPLE. Minister Straus Will Probably Be Made an Embassador.

WASHINGTON, Oct. 18 .- The reference by the sultan recently in an audience granted to Minister Straus to the proposition to increase the rank of the mission to an embassy has been noted here with satisfaction. For a year past our government has been willing to be represented by an embassador at Constantinople and has intimated as much to the porte.

The law does not permit the state department to take the initiative in such cases, as the president may appoint an embassador only when the country to which he is accredited first sends an embassador to the United States. When the intimation was conveyed to the porte, it is understood there were reasons of an economical nature for not acting upon it favorably, but in view of what has passed between Mr. Straus and the sultan it is now believed that the former will soon be made an embassador, with the result that his usefulness will be increased.

No Use For Spain to Keep Up Het Blams Game-Spanish Commissioners Ask For an Adjournment to Consult Madrid.

LONDON, Oct. 18 .- A dispatch to London news agency from Paris, dated vesterday, says:

"Today the conference reached a cri sis for the first time. Judge Day pre sented the demands of the American commissioners in threatening words He said that delay was the only possi ble object attainable by the persisten efforts of the Spanish commissioners to saddle the United States with the Cu ban debt and would be tolerated no longer, as the United States would net ther assume nor guarantee any part o

"The Spaniards replied that this plac ed Spain in a position of repudiating of of reducing the face value of the Cubar bonds from 50 to 60 per cent, paying only half the stipulated interest on the reduced value. Before they would adop either alternative they would surrender to the United States the entire Philippines.

"Judge Day responded that the surrender of the Philippines would probably be demanded irrespective of the Cuban or any other debt.

"This-to the Spaniards the first inti mation of the intentions of the United States as to the Philippines-resulted ir a whispered conference, followed by a request for an adjournment in order to communicate with Madrid. Judge Day said that President McKinley had instructed him to demand the entire surrender of Porto Rico tomorrow and the delivery of every town to the United States officers before midnight, together with the evacuation of Havana on or before Nov. 1, when the United States would be at the gates of the city ready to take possession.

"There was no alternative offered in the case of either of these demands, and the session consequently was very brief The American commissioners have received dispatches from Washington in dicating that the administration is irritated and indignant over the delay of the Spanish commissioners."

The Paris correspondent of The Times

"At the sitting of the peace commission this (Monday) afternoon the American commissioners officially-and it would seem definitely-rejected the idea of accepting sovereignty over Cuba for the United States.

"The Spanish commissioners thereup on remarked that, Spain having abandoned such sovereignty under pressure and the United States having denied that sovereignty henceforth belongs to them, Cuba is de facto in a state of anarchy, as an intermission of sovereignty cannot be viewed in any other

'The American commissioners rejoined that without accepting sovereignty the United States considered them selves bound to maintain security for all the inhabitants: that they would not fail to introduce and uphold order and in support thereof to put the island as speedily as possible in a state of normal organization, to be transformed at the earliest moment into a legal regularity satisfactory for the se-

curity of all. "Upon this the Spanish commissioners, with what seems striking logic, promptly replied that by the fact of the declaration just made them and of the United States undertaking to restore legality, order or security the United States were invested with veritable sovereignty and consequently could not refuse to accept the consequences of such sovereignty, seeing that they admittedly could not tolerate the relapse into anarchy of an island placed under their supervision and direction.

"Notwithstanding the striking objections, the American commissioners persisted in their refusal and officially declared that the United States cannot be considered invested with sovereignty and that they (the commissioners) could not deviate from this definite dec-

"According to impressions I have been able to collect in various circles unconnected with either side, but entitled to weight, the refusal of the United States is not of so positive a character as would at first sight seem to result from the formal declarations mentioned.

"The reasoning given me is this: 'The United States have declared that they made a war not of conquest, but of liberation and order, because they could not allow the prolongation at their doors of a state of things which was, in their eyes, a blow to the cause of humanity and civilizatic. They therefore made a public declarat in that the war was not one of conquests, and they now consider that by agreeing to be invested with the sovereignty of Cuba they would give themselves the appearance of having conquered the island for territorial aggrandizement. They refuse to give themselves the appearance of a conquering nation; hence they positively refuse to accept that capacity of sovereignty which would be inconsistent with the character of humanitarian disinterestedness essential to the honor of America."

"The United States quite comprehend that their firm refusal to accept sovcreignty does not exclude obligation, on the footing of justice and equity, to make Spain real concessions as to: financial burders, which would be crushing if the vere salded with the whole Cu as 3 bt. Military Circles Predict Trouble. BAYONNE, France, Oct. 18 .- Advices received here from Madrid point to efervescence in military circles there Members of the Military club openly and severely criticise the government for concluding what they term "a humiliating peace," and some of them even suggest the establishment of a military dictatorship under the present dynasty.

There were also about 50 civilians, among whom was

W. S. Larner of the postal commission. The Minnewaska left New York for Porto Rico, stopping at Charleston and Santiago de Cuba on the way south. At Ponce 35 convalescents were taken on board, and of these only 15 were ill on arrival. The transport was met at the Narrows by the quartermaster's boat General Meigs, and the sick were immediately transferred on board. They will be taken to Bellevue hospital. Health Officer Doty boarded the transport and after brief inspection permitted it to proceed. The Minnewaska will be docked at pier H. Refutation of Seaman's Charges. WASHINGTON, Oct. 18 .- The subsistence department of the army has a statement refuting some features of the testimony of Major Seaman, surgeon, before the war investigating commission. Major Seaman said no one could get supplies for the sick from the commissary of subsistence, yet when he left Ponce the chief commissary there had at his disposal \$2:4.000 subject to requisition of surgeons for just such supplies as Seaman said he wanted. Major Daly, surgeon, who came with troops about the same time, made a requisition and secured \$3,600 for the purchase of supplies for the sick and turned the unexpended balance into the department here when he

THE MOHEGAN DISASTER.

Coroner's Inquest Begun-Fifty-six Bodies Recovered.

FALMOUTH, England, Oct. 18.—The belief is growing that the wreck of the steamer Mohegan of the Atlantic Fransport company, which foundered in a gale on Friday near the Lizard, was caused by a ghastly blunder in navigation. The disaster is still inexplicable to the company. How a ship commanded by an efficient captain could run aground on a starlit night is, according to those who should know, unfathomable.

The inquest began yesterday afternoon in the church of St. Keverne, because it was necessary formally to identify the dead there. The survivors, many of them wounded and carrying their arms in slings, were obliged to ride 20 miles over the roughest roads

from Falmouth. The coroner expressed his sympathy with the relatives, "many of them from a distant, but kindred country." roll of the dead was then called. One woman's body was claimed by two families; other bodies had no identifi-

cation. Mr. A. S. Williams, the company's London manager, testified, describing the ship as in the finest condition. He said they had had trouble with her boilers on her first voyage and had withdrawn her from one trip, devoting several weeks to repairing her machinery, which was perfectly adjusted. He described the officers of the Mohegan in the highest terms, laying stress upon the abstemiousness of Captain Griffiths.

A Juror-Was Captain Griffiths in good health? Mr. Williams-I saw him just before

the Mohegan started, and he seemed perfectly well then. The Juror-Is it not a fact that he was lying on a couch most of the first day?

Mr. Williams-I can prove that all the officers were on deck and aiding to get out the boats. Mr. Kelly insisted that the boats were

improperly arranged, being surrounded by railings instead of swung on davits, so that they were with difficulty launched. Mr. Williams contended that the

launching of four boats in 20 minutes was good work. The coroner adjourned the inquest for

a week to secure the attendance of a nautical expert representing the board of trade.

After the adjournment Mr. Kelly complained that only members of the crew had been summoned to testify. The coroner replied that he would be very glad to hear the experiences of the passengers. In response Mr. Kelly, with others, protested inability to remain for an adjourned hearing a week later, offering to testify immediately. The coroner declared that this was out of the

England to Restore Emperor: LONDON, Oct. 18 .- A dispatch to a London news agency from Shanghat says: "Reports from Japanese sources are in circulation here to the effect that Sir Claude Macdonald, British minister at Peking, has informed the Chinese government that sovereignty appertains solely to the emperor, who has been forcibly abducted and denosed. and that he must be restored to his position, while Kang Yu Wei and the other reformers must be pardoned. EVACUATION OF CUBA

Spanish Commissioners Answer American Note.

CAN'T GET OUT SOON AS REQUES**TED.**

Will Take Several Months to Send Soldiers Home - Dispute About Sovereignty Renewed - Blanco and Red Cross Supplies.

HAVANA, Oct. 18.-The Spanish military commission has sent a reply to the American note concerning the evacuation of the island. The Spaniards continue to insist that the troops cannot be sent from the island as rapidly as the Americans desire.

The Spanish note discusses at length all the points raised by the Americans and seeks to prove that the latter are wrong in their contentions. It declares that evacuation, according to the terms of the protocol, means only the withdrawal of the military from the island and not the surrender of Spain's sovereignty in Cuba. This latter question is a matter to be settled by the peace commission in Paris. Until it is settled the Spanish government is as sovereign here as it was before the protocol was signed, and neither commission here has any other power than to arrange for the military evacuation of the island. The note concludes with a declaration that it is a physical impossibility for the Spanish troops to leave for several months.

Another Spanish note deals with the right of the Spanish government to sell old bronze cannon and other useless war material at public auction as has been the custom here.

Another note asserted that Captain General Blanco formally acceded to the request of the American commission to permit the free entry of Red Cross supplies at the ports of Havana, Cardenas, Cienfuegos, Sagua la Grande, Caibarien, Bahia Honda and others of less importance.

It has been reported in Havana that many of the officers of General Gomez's staff have received leave of absence; but, it is added, they have really resigned owing to serious trouble with their chief. It is further asserted that the only staff officers remaining with Gomez are Deschapel, a colored Dominican, and Marcos Rosario. Among those who have left Gomez, according to report, are Dr. Fermin, Valdes, Dominguez, his chief of staff; Major Boza, Surgeon Lucas, Alvarez and Aids de Camp Tafel, Estrampes and Molina. They say that Gomez, who was always had tempered, has lately become unreasonable, making it impossible to remain by his side.

Colonel Waring has sent a cable report to President McKinley as to the sanitary condition of Havana, informing him that at present it is not necessarily dangerous to public health, but that the effective work of sanitation would cost a large sum of money.

Sunday afternoon Regla, a suburb of Havana, was thoroughly aroused by a sensational incident. On the Havana train stopping at the Cuban camp of Rafael de Cardenas several hundred passengers were picked up. Many who boarded the train displayed the Cuban insignia. A Spanish colonel, who was also a passenger, objected to this and tore the badges from the breasts of the wearers, at the same time giving orders to the civil guard accompanying the train to arrest the engineer and conductor if they dared to stop again at a Cuban camp.

EXELIGIBLE OR A TAX DODGER

Theodore Roosevelt is One or the Other.

GANNOT ESCAPE FROM HIS DILEMMA.

A Plain Statement of the Facts in the Roosevelt Tax Case.

To Escape Taxation in Oyster Bay He Swears He is a Resident of New York City-Then He Swears Off His Taxes in New York By Making Affidavit That He is a Resident of Wash=

The Democratic platform adopted at Byracuse declared:

"If the affidavits and official statements of the Republican candidata for governor are true, he is inaligible to the office of Governor; if false, he has committed perjury, and is morally disqualified. He cannot escape from his dilemmathere is either legal disqualification or moral unfitness.'

The record proves that the declaration made by the Democrats in State convention is truthful and conservative. His own statement made under outh prove that Theodore Roosevelt is either legally disqualified for the office of Governor of New York State or he is a tax-dodger and perjurer.

The question of Colonel Roosevelt's eligibility turns on the question of his, residence. It was raised by himself in this way:

Section 2 of Article IV of the State Constitution is entitled: "Qualifications of Governor." It is as follows:

Sec. 2. No person shall be eligible to the office of Governor or Lieutenant-Governor, except a citizen of the United States, of the age of not less than thirty years, and who shall have been five years next preceding his election. a resident of this State.

On the 10th of January, 1898, the department of Taxes and Assessments of New York city notified Mr. Roosevelt en one of the ordinary tax blanks that his personal estate had been assessed at \$50,000. The blank was addicasted to 689 Madison avenue. New York city. Mr. Roosevelt had lived there while Police Commissioner. He had paid taxes there. His address was given there in the city directory for 1897. He was informed that objections to the assessment would be heard up to April 20, 1898. There was no difference between the notice sent to Colonel Roosewelt and that sent to all other taxpayers in New York city. The notice to Mr. Roosevelt required him personally to file or state any objections on or before the last day of April. He did not put in a personal appearance, but on March 21, 1898, he sought to avoid the tax and did avoid it by this affidavit:

Washington, District of Columbia. ss.:

Theodore Roosevelt, being duly sworn, says: On April 19 last I was appointed Assistant Secretary of the Navy. I came on to Washangton and took up my residence here. On May 1, 1897, I and my family moved out of the house we had been occupying in New York city and my sister moved in. I had rented the house from her, my understanding being that my family should move out on May 1, but that I could stay there until October 1, 1897, if I so desired.

I had no residence in New York city and did not vote and could not vote there at the last election.

Since October, 1897, I have not had any domicile or residence in New York city, and have not and do not own or lease any dwelling house there whatsoever. Last June I rented the house in which I am now residing with my family at 1,810 N street, Washington, D. C.

In October last my family came on here from Oyster Bay, Long Island, and since then I have been and now am a resident of Washing-

THEODORE ROOSEVELT. Sworn to before this 21st day of March, 1898.

EDWIN P. HANNA, Notary Public. The purpose of this affidavit was to escape taxation in New York city.

When the assessment of personal taxes made against him at 689 Madison avenue was confirmed by the New York city tax commissioners because his affidavit of residence in Washington was not a personal appearance as required by law, Mr. Roosevelt's lawyers secured a writ of certiorari. This is a writ to review the action of the Tax Commissioners with the purpose to compel them to cancel their assessment issued to him at 683

Neither a Resident Nor a Voter of New

Madieon avenue.

Mr. Roosevelt's affidavit shows that he was neither a resident nor a voter of New York city last year. On March 21, 1898, he swore TO AVOID TAXES:

"I had no residence in New York enty and did not vote and could not

vote there at the last election. In October last my family came on here from Oyster Pay, Long Island, and since then I have been and now am a resident of Washington."

This affidavit proves that Mr. Roosevelt has sworn that from last October, 1897, to March 21, 1898, he was "a resisent of Washington." He was not therefore, then a resident of Oyster Bay. His affigurit excludes his residenceship in Queens county, as well as in New York county, between the dates of October 1, 1897, and March 21, 1898.

Roosevelt Swore Off Oyster Bay Taxes in 1897.

It is intimated by Mr. Roosevelt's friends that the affidavit of March 21, 1898, is qualified by the claim that he regained a residence in Oyster Bay in October, 1897, three months after he rented the house 1810 N street, Washington, D. C. The absurdity of this claim is proven by the statement that. in the language of Mr. Roosevelt's affidavit sworn to in March, 1898, it was in October, 1897, his "family came on here from Oyster Bay, Long Island, and since then I have been and now am a resident of Washington." The fact that Colonel Roosevelt was not and did not consider himself a resident of Oyster Bay, after his appointment as Assistant Secretary of the Navy in April, 1897, is irrefutably fixed by his sworn application to the assessor of the town of Oyster Bay, under date of August 24, 1897, for exemption from taxes assessed against him in that village upon the ground that he was then a resident of New York city. Here is a copy of Mr. Roosevelt's ap-

plication and his answer to the questions contained on the application blank:

Notary Public. Roosevelt's Success as a Tar Dodger.

Here we have the whole matter in a nutshell, the entire case being based on the official records and Colonel Roosevelt's own affidavits. Mr. Roosevelt claimed and received exemption from Oyster Bay taxes on the ground that he was a resident and a voter in New York. He then claims exemption from New York city taxes on the ground that he was a resident of Wash. ington. He paid no taxes in Washington in 1897, the statement of the tax authorities of that city clearly establishing that fact. He voted nowhere in 1897. He did not vote in Oyster Bay because he had aworn in that village that his residence was in New York city. He did not vote in New York city because he had made affidavit there that his residence was in Washington. The Constitution Piainly Dobars Roosevelt.

The language from the constitution contain the word "resident." The first the constitution mays a men must be to calls "Qualifications of Governor," among friends anyway?—Riverhead There might be a distinction drawn be-

ween residenceship and citiz nship, but the constitution; deep not draw it. It speaks only of "a resident" and the case is not affected by any distinction. which there may or may not be between that and a citizen. Whether the constitution regards a resident and a citizen as the same thing, or the words as different in meaning, thees not signify. The object is plain. It is to preent the governorship of this state from going to absentees or deserters from its citizenship or to those who have not been at least five years residents among its people, and in that way acquainted and identified with their interests and rights.

Of course, the law is plain that service under the United States government at Washington or anywhere in the United States, or in foreign parts, of itself neither gives to a man a residence nor causes him to lose it or in any way impairs his rights to vote, where he previously had such right. National services of itself does not create what may be called national residence or destroy the right of state

But that is a right which a man himself can renounce, and when he renounces it, he must regain it, after renunciation, by the same course required of other voters. Mr. Roosevelt chose to renounce his residenceship in this state, to avoid taxes. He chose to set the time when he began to renounce it, and the time within which he continued to renounce it. His affidavit says he was a resident of Washington last October, a resident of Washington March 21, 1898, and in saying this, he likewise says that he was not a resident of New York and "could not vote and did not vote there last year." Incidentally, we may add that as a man must be a resident of this state for one year at least preceding any election, and as Mr. Roosevelt has sworn he was a resident of Washington on March 21, 1898, he cannot vote in this stae this year at Oyster Bay or anywhere else. Federal service has not and would not of itself affect his residence or his voting, but his renunciation of residence, to avoid taxes, destroys, by the constitution, his "qualifications for governor," and also would prevent him from voting at the ensuing election.

JUDGE COUNTRYMAN'S OPINION.

This Able Lawyer is Clearly of Opinion That Mr. Roosevelt is Not Eligible to the Office of Governor.

Judge Countryman of Albany, is one of the ablest lawyers in the state of New York. His opinions on legal questions are regarded as authority by lawyers wherever he is known. In response to a request for a careful and thorough review of the legal aspect of the Roosevelt affidavit and its bearing upon the question of his eligibility to the office of govenor, Judge Countryman gave the following opinion:

"Is Mr. Roosevelt eligible to the office of governor? This is a clear case, The material facts are undisputed. Mr. Roosevelt had been for many years prior to 1897 a resident of the state of

"In April of that year he was ap-Secretary up' his residence there. May 1, 1897, he gave up the house in New York in which he had been living with his family, and in June rented a house in Washington. In October of the same year his family removed to Washington and he, with his family, occupied the house rented there, where they re-

"The object of the affidavit was to otherwise, nor for the purpose of evad- | justify the non-payment of taxes in • ew York, on the ground that he had changed his residence to Washington.

"It has been suggested that Mr. Roosevelt stated in his private correspondence that he did not intend to lose his residence in New York. It is exceedingly unfortunate that he did not so state in his affidavit. He is bound by his declaration under oath, and is estopped from saying that he made that declaration with a mental reservation that he did not mean what he stated in explicit terms.

"It is also suggested that the affidavit was made merely 'to evade paying : double taxes in Washington and New York.' If such is the fact there is a strong implication that the assessment in Washington was not objected to or contested, and that it was recognized by Mr. Roosevelt as legal. If this be true not a peg is left to hang a doubt upon. If he was a resident of Washington for five months or even a single day he is unable to hold the office of governor of New York.

EDWIN COUNTRYMAN. The Republican party has nominated Theodore Roosevelt of Washington, and the language of this affidavit both | D. C., for Governor of New York. The constitution says that the person electsays that a man, to be governor, "shall ed governor must have been for five have been five years next preceding his | years preceding a citizen and resident election a resident of this state." The Cook's Palls Creamery Closed-Recovered from Ein Injuries-0. and W.'s Autuma Krennion-A Many Storo-A Popular Train-Prices for Polatote-Ruckland and Her Bridges-The Wreck at Fulton Perest Protection. Correspondence ARGUS AND MERCURY.

—The creamery at Cooks Falls is closed for a short time at least. The building is owned by the railroad company and it is expected that it will shortly start up under a new firm.

-Mrs. E. D. Fauble, of Roscoe, who was thrown from a wagon by the fastenings of the hind scat giving away, has recovered from the shock and injuries received. The reader should at once see to it that his wagon seats cannot give away in that way.

-Of course the O. and W. excursion to New York will be well patronized. When that company reduced its fare to two cents a mile and then gives excursion rates for a fare one way it means that the passenger rides for a cent a mile going and returning cheaper than shoe leather.

-The Leighton store at Cook's Falls is a busy place. All of the workmen in the woods and at the four acid factories get their supplies from this point; and as all of the factories are connected with the store by telephone it is convenient for all concerned. Not less than twenty families have to be fed and clothed at each of these factories.

-There is no more popular train on the O. and W. than the Snihvan County Eqpress running between New York and Rockland, and none more safe as there has not an accident happened to it in any way since the present tealumen, who all make their home in your city, have had charge of it. It is no disparagement to other crews on other trains on the road that I should mention this one in particular.

-We frequently see an item that reads like this: "Potatoes are selling at Getthere for thirty cents a bushel." Now those who have to use potatoes, and the most of people do, should lay in a supply at once as there is no hope of their being cheaper. If potatoes sold last May for \$1 or in many instances \$1.25 a bushel and the crop of '98 is at least one-third less than that of '97, and in many localties it is a halfless, then what must be the price before another crop is harvested? The same with apples. N. B.—The writer has none to sell.

-The town of Rockland will probably not litigate any more over its old bridges. Had Leighton not had a place to put those bridges he would not have paid what he did for them. The town has another in hand to sell, and it remains to be seen what it brings. The two old ones that there has been so much trouble over should never have been taken down, as \$250 in repairs on each of them would have made them good for twenty years to come. Rockland has been unfortunate in its highway commissioners for some years past, and this was no doubt the cause of the people voting against the sum asked for to repair the roads and rebuild the bridges washed away by the last flood.

-Regardless of what may be the outcome of the pending proceedings against those who are supposed to have caused the wreck to O. and W. train 5 near Fultop, there are those , who cling to the opinion that it was the work of boys who thought it would be fun to run the | the Delaware, Neversiak and Beaverkill | train through on the switch and no harm down. -It is all right that the State lands should be protected from timber poachers, but the fact remains that not one in five of the actions brought against those who cut timber can be maintained for the good reason that the defendant is able to show a title to the land which, although it may be defective in some points, answers so well that twelve! men good and true will refuse to convict. The man who has in good faith bought and paid for timber lands and holds a deed for the same is not looked upon as a great criminal if he cuts the tumber, even if the State may at some time or other have acquired a title by sale for taxes. Forest protection like that of fish and game furnishes good fat places for an army of office holders who fatten at the expense of the dear people and that is about all there is to it.

The soldier boy doll has quite driven the popular Brownie to the wall.

The secret of true happiness is to have what we want when we want it. To have persons thoroughly at your meiny get them to permit you to shampoo ibeli heads.

Friendship costs a good deal more than the two-cent stamps on letters between the separated.

To some of us life is so full of disappointment and suffering that the bright times are regarded as really suspicious circumstances. It is a pleasant thought to the wom-

The species of tyranny to which a patient is subjected by a trained nurse brings her fully in touch with the ballad imploring a return to childhood just for the night.—Boston Herald.

WOMAN'S WORLD.

A French writer attributes the grace of Spanish women to the fact that many of them are taught fencing.

Mrs. Magdalene Thorsesen, the stepmother of Mrs. Ibsen, says that the author's wife is passionately fond of literature, and has exerted a great influence over him.

The czar has appointed the downger empress of Russia honorary colonel of the Pereyaslav regiment of dragoons, of which Emperor Alexander III. was colonel in chief.

There was lately graduated from Grafton hall, an Episcopalian girls' school in Fond du Lac, Wis., Miss Lois Minnie Cornelius, an Oneida Indian. who is a direct descendant of a long line of chiefs, her grandfather having teen the celebrated Skenandore.

It is estimated that there are nearly :000.000 slf-supporting women in the United States. Almost every branch of work known has been taken up by members of the gentler sex, and the rades and professions show the workers to have acquired skill and ability in the practice of their various callings. On one occasion when Mrs. Glad-

tone gave a dance the guests were surprised to notice as the evening went on that the masculine-or, at all events, the bachelor-portion of the community was conspicuous by its absence. "Oh., dear!" exclaimed Mrs. Gladstone, "I quite forgot to send out the men's invitations; they are all in a bag under the sofa."

"My lady, I am at your feet," is the prescribed form of salutation in Mexico from a gentleman who meets a lady. whereas if two gentlemen meet they say: "I kiss your hand."

A Mexican will never permit a lady to descend the stairs alone; he takes her by the band or offers his arm and only takes leave of her at the street door.

Often in their rambles through Mexco strangers lose their way, and if they have a slight knowledge of Spanish an appeal to a native is certain to bring ourteous relief

The Mexican lover calls his sweetheart "the very eyes of me" and if she rejects him he is likely to say: "Since there is no help I bow before you kiss your feet and depart."

Even the poor laborers rarely address one another without some terms of endearment. "Como estas, mi aima?" "How are you, my soul?") is a common form of address.

An American young lady was once talking with an old Mexican gentleman and she laughingly said something about having some literary work to do. It was good to see the old fellow's impressive manner as he exclaimed: "Work! Miss, such hips as ours should never mention work. You should be a queen and wear pearls as beautiful as those incased in your love-'v mouth!"

NOT GREAT TO EVERYBODY.

It is comical that Joseph Jefferson should announce at a dinner in honor of Tostoi his entire ignorance of the writer and his works.

The New York memorial meeting to Robert Louis Stevenson was addressed by men who had evidently read himbut little. Not one of them referred to him as a critic and essayist. When Tree, the English actor, was

A dinner in New York to Anthony Hone discovered a most amaz ng va riety of ignorance as to his work. One ast speaker frackly admitted the urter blank to his mird that the guest was and so "how can I make a speech bout him?"

The nomination of Charles L. Elwood for Mayor is received with every evidence of popular favor. His fitness for the office is conceded by all and this, in connection with his great personal popularity, makes him a strong candidate.

Samuel D. Roberson, the Democratic candidate for Congress, is growing in strength and popularity with each day that the canvass progresses. In this city, where he is known almost as well as in his own town, he will receive a very flattering vote for scores of Republicans who know and appreciate his worth will cast their votes for him. He is a man of the people, closely in touch with them, and if elected will faithfully represent them, looking closely after tueir interests, and serving them to the best of his ability.

Governor Black's administration has been endorsed by his party as "wise, statesmanlike, care ul and economical." If the voters of the State agree with that estimate of an administration under which millions of the canal appropriations were stolen and squandered, this morning. and State expenses increased to double what they were in Democratic times, they will vote for the Republican candidates. If they are tired of that kind of an administration and wish to return to honest and economical government they will vote for the Democratic State and legislative candidates.

The commission which is investigating the conduct of the war has made it very plain during the last few days that it does not desire to learn the truth. Witnesses who dared to testify that there had beer mismanagement or incompetence in any of the administrative branches of the service were bullied and browbeaten by the commission's questioner, Judge Beaver, and the War Department's influence was plantly exerted to close the mouths of army officers, who had knowledge of meriminating facts-A whitewashing report is clearly fore. shadowed and if responsibility is to be fixed for the inconpetence that cost the hies of thousands of our soldiers and wrecked the health of tens of thousands more, it must come through an investi gation by Congress,-not a Congress of the same political complexion as the officials under investigation, but one that will have no object in concealing the truth. Noters of this district who

wish the truth brought out concerning army affairs can help secure that end by voting for Samuel D. Roberson.

The issue in our city election is the same that it was last fall, when by the help of many Republican voters, nearly all the Democratic candidates on the city ticket were elected on a platform pledging them to strict economy in the conduct of the city government. The promises made last year have been fulfilled to the letter and the Democratic candidates now before the people are one and all heartily in favor of a continuance of the policy of economy mangurated during the past year. It has been pos. sible to reduce the tax late twenty per cent. without in any way crippling any department of the city government. If the Democratic candidates for city offices are elected the good work will go on and no greater service can be rendered Middletown than the continuance of a policy of lower taxes, which alone can restore to our city the prosperity lost to it by the oppressive taxation which was necessary to meet the extravagant expenditures of Republican rule.

ESCAPED A SPANISH GUNBOAT. New York, Oct. 18-The large American clipper ship Great Admical arrived, last night, from Manila via Hong Kong. When hostilities with Spain began the ship was lying at Manila. Two hours' notice was given her, although at first the authorities tried to hold the ship. She got to sea April 28th, but was overtaken, next day, by the Spanish auxiliary gunboat Manila, which steamed about the ship, but Captain Sterling had a letter from the Spanish Port Admiral, permitting him to proceed and the gunboat could not molest him under twenty-four hours.

"I hoisted Old Glory," said the captain "and gave him the slip during the night and made Hong Kong where I remained until it was evident that I could sail for home with safety.'

THE BIG FAIR OPENED. CASINO CROWDED FROM DOORS

TO GALLERY-

Prettily Decorated Spoths in Charge of Middletown's Pairest Baughters-The Ladies Who Are in Charge.-The Cake Walkers Achieve An Overwhelming success-Their Performance Greeted With floars of Laughter-Monhagens' Minstrels To-Night's Attraction and a One Act Musical Comedy Will Mold the Beards To-Morrow Night -- Last Might's Prize Winners.

The Monhagen-24th fair was opened Monday night, with greater promise for a tremendous success than any similar event given in this city. Sixteen hundred people paid their way and stood in the crowd which extended from the Casino foot lights to the last seat in the the upper gallery.

Such a jam was never in the theatre before. Such an attendance would bring John Drew or Mand Adams here every season and any other shining light of New York's stage would willingly come here to an audience numbering 1,600.

Of course, not more than 500 of this vast audience sat down. Everybody down stairs wished there were more seats, and everybody upstairs wished there were none taking up the space where people were willing to stand.

The doors were thrown open at 7:30 o'clock, but long before that a crowd had gathered outside of the Casino, filling the side walks and street until they were barely passable. The crack 24th band, the members of which feel for the boys who used to appla 4 them, who are now in Honolulu, played several selections in front of the theatre, and added greatly to the interest in that part of the city.

At 8:20 George H. Decker stepped from the scenes to the footlights and formally opened the fair in a short address in which he enlogized firemen and soldiers and Monhagens and the 24th. He was roundly applauded.

Miss Vida McNevin, daughter of David McNevin, a prominent honorary member of Monhagens, recited a "Gypsy Flower Girl," and she proved a decided and pleasing surprise to many who had not beard ber.

The next number on the programme, the cake walk, set the audience a buzzing with anticipation. Once the curtain went up, however, and Chief Charles Higham, also a Monhagen, appeared leading the seven "lady and gentleman artists," the applause which broke out from all quarters of the house, showed in an instant that a decided hit had been made.

"Chick" was gorgeous in a suit "from New York" and a chunk of glass as big as a horse chestnut shone brilliantly on his brass band shirt front, and another chunk made one little finger ache. He led the way down the stage with all the confidence of a "Nick."

Behind were the Monhagen boys who have been practising cake walks for a fortnight. They were most grotesquely costumed and the outfits must have cost the wives and sisters many sleepless

Unquestionably the greatest get-up of all was that worn by "Bob" Vail, and every lady in the audience who has attended minstrels and kirmesses for the past few years must haveknown that no one but the wife of Lieut. A. L. Decker. (Honolula), could so successfully prepure "Cousin Bob" for exhibition as a genuine colored lady whose specialty is walking for cake. Another "lady" who, should she appear on the outskirts of Camp McKinley, Honolulu, would have called every 24th man out of his tent, was Charles B. Buckley. "Buddy' Ketcham, Phil, Wengenroth, Henry Still and Frank Remsen were made un so completely that few of their friends could pick them out. Their partners were Warren J. Adams, L. M Milligan and Frank H. Scudder in swell white ducks; Frank Curran, in a dream of his own; Julius F. Korn, stately as a colored duke; dapper "Jimmy" Tighe, who with "Bob" Vail, were great favorites with the audience.

One other couple won the cake after W. B. Royce, U. T. Hayes and John ... Wiggins, the judges, had watched the promenaders for some time. This couple was Ernest Cox and Harry E Heaberger. The former is six feet tall, well proportioned and he was particularly graceful. His partner was attired in skirts, which exposed a pair of bicycle limbs, and gave the owner an excellent opportunity to acquit them gracefully and effectively in the fancy steps.

They divided the cake among their competitors after the walk.

After the walk was over, two genuine "darks" in costume, Philip Walker and George Smith, appeared and gave on exhibition of buck and wing dancing. "Smithie" made a great hit.

Will Curran shocked a number of prople who didn't know his sex, in his "Dance a la l'aree." When he pulled off his wig, however, the applance was ter-

LEMONADE BOOTH.

TURKISH BOOTH.

This booth nestles cutely in a corner of the room and is prettily decorated with heavy curtains and Turkish tamps. These ladies have nothing to be disposed of by chance, but any grade of cigar or tobacco can be secured there, and there is a "cosy corner" for smokers. The young ladies in charge are:

Miss Edith C. Royce, Mrs. W. F. Bailey, Misses Elizabeth L. Rogers, Pearl Corwin, Lillian M. Adams, Bessie Beers, Lulu Corwin, Jennie Hayes, Lillian Morgans, Maysie Thompson, Belle Wilcox, Mame Pronk, Martha W. Gordon.

CANDY BOOTH.

PRIZE COMMITTEE.

It is quite necessary inasmuch as so many articles are to be disposed of by chance, that some one should button hole you and get your namedown in her little book for, say, tem cents. M'KINLEY IN CHICAGO

President Receives a Degree From the University.

PROFESSOR SMALL'S HIGH TRIBUTE.

Impressive Scene When the Degree Was Conferred-President In Cap and Gown-Banquet at the Auditorium Last Night.

CHICAGO, Oct. 18.-The University of Chicago yesterday conferred upon President McKinley the degree of doctor of laws. Eight hundred people, as many as could be jammed into Kent theater. applauded to the echo as President Harper placed around the shoulders of the nation's executive the hood of pur--purple to indicate, as Dr. Harper said in Latin, that the recipient of the degree "had surpassed other men in native genius and devotion to it."

The exercises at the university, while hampered very much by wet weather, were still impressive to an extraordinary degree. The president spent the morning quietly, receiving only those callers for whom appointments had been previously made, among them being Senator Fairbanks of Indiana. Shortly before 12 o'clock he left the residence of Captain Lafayette McWilliams, entered a carriage and was driven rapidly to the White House of the university, the home of President Harper. Here luncheon was served to the presidential party, the faculty of the college and a few invited guests, prominent among whom were Archbishop Ireland of St. Paul, Rev. Dr. John Henry Barrows and Thomas B. Bryan.

A heavy rain set in at 11 o'clock and continued during the rest of the day. This interfered materially with some of the elaborate arrangements made by the university authorities for the reception of the president, but did not seem to abate in any degree Mr. Mc-Kinley's good nature or his appreciation of the demonstrations in his honor. Mrs. McKinley was not present at the luncheon, but joined the party at Kent theater in time to witness the conferring of the degree upon her distinguished husband.

Before entering the theater Mr. Mc-Kinley mounted a stand in front of Dr. Harper's residence, where he stood under an umbrella and reviewed a long line of the students of Chicago university and its affiliated institutions. At 3 o'clock the president entered Kent theater amid great enthusiasm. Dr. Harper took the seat in the center of the stage, flanked by President McKinley and Rev. Charles R. Henderson, chaplain of the university. The president presented a striking appearance attired in the cap and gown.

After prayer by Dr. Henderson the address on behalf of the trustees was given by Rev. Dr. Alenzo K. Parker. He spoke on "The Firm Foundation of National Peace."

After the singing of "America," Professor Albion W. Small delivered the address on behalf, of the congregation, Throughout his address he was greeted by unbounded enthusiasm, his remarks in commendation of the president's course during the troubles with Spain being received with resounding cheers. In conclusion he addressed President McKinley directly, as follows:

"in expressing to you, sir, our respect, our gratitude and our admiration, the members of the university believe that we voice a general judgment of the citizens of the republic. You have honored while you have represent ed the nation by the careful poise; the cautious prudence, the courageous patience, the constant patriotism with which you have discharged the peculiar task of your administration. This official conduct, at once so typical and se exemplary, has at the same time satisfied the citizens' expectations of the executive and gratified our pride and stimulated our ambition. You have led the nation upon a triumphant march of forbearing peace and of unfaltering war. At every step your leadership has won loyal approval. 'This is lefty, this is judicial, this is honorable, this is

"We congratulate you, sir, upon this secure result of your official life. Your exercise of the presidential prerogative has increased the prestige of the chief magistracy and exalted the standards to which it must henceforward conform. This result is both a splendid national achievement and a glorious national ideal. This achievement and this ideal the university would signatize and celebrate."

Solemnly and impressively the dean and the president of the university then pronounced in Latin the formula conferring the degree of LL. D. upon the president of the United States.

When the purple lined hood was place ed around Mr. McKinley's shoulders, the audience broke into cheers which lasted fully five minutes. Throughout the exercises the president did not speak one word, merely bowing in response to the words of the collegians and the demonstrations of the audi-

ence.

At 4 o'clock be left the university grounds and was driven to the First Regiment armory, where for some time he received the public informally.

Great crowds of people throughd the streets elamoring for admittance to the armory, and only a part succeeded in meeting the president during the time scheduled for the reception. In the evening a dinner was tendered the president at the Auditorium hotel by President Harper of the Chicago university.

The strong wind and rain storm played havor with the peace jubilee arches and decorations. Six of the arches were blown down and badly damaged. Three persons were struck by pieces of wreck. age and seriously injured. Hundreds of flags and streamers of bunting with which the down town buildings were decorated were torn away by the wind. It is hardly probable that the arches will be replaced,

Expert bicyclists have already suc-ceeded in riding a single wheel, or unicycle, for short distances. In years to come the unicycle may become as common a mode of locomotion as the bicycle. Only a few years ago people would have laughed at the idea that all the world would shortly be awheel. It is not in me-

chanics alone that the world is making rapid progress. Not many years ago all physicians pronounced consumption an incurable disease. To-day a large proportion of people recognize that it is a distinctly curable disease. Doctor Pierce's Golden Medical Discovery cures, of per cent. of all cases of consumption. It has stood the test for thirty years. Thousands of people who were given up by their doctors, and had lost all hope owe their lives to this marvelous remedy. It acts directly on the lungs, driving out all im-purities and disease germs. It restores the appetite, corrects all disorders of the diges-tion, strengthens the weak stomach, makes the assimilation of the life-giving elements of the food perfect, invigorates the liver, purifies the blood and tones the nerves. It is the great blood-maker and flesh-builder. It does not make flabby flesh like cod liver oil, but the firm, muscular tissue of absolute health. An honest dealer will not offer you an inferior substitute for the sake of a little added profit.

Miss Mary Whitman, of East Dickinson, Franklin Co., N. Y., writes: "For nearly ten months I have had a bad cough, and instead of getting better, it grew worse. I was said to have consumption. I tried Dr. Pierce's Golden Medical Discovery, and when the second bottle was empty I had no cough and was cured."

Dr. Pierce's Good temper is largely a matter of good health, and good health is largely a matter of good health, activity of the bowels. Dr. Pierce's Pleasant Pellets cure constipation. They are safe, sure and speedy, and once taken do not have to be taken always. One little "Pellet" is a gentle laxative, and two a mild exthautic. They never pellets.

which happen in city thoroughfares. but I take it this is due to the fact that more people cycle on country highways than in the streets of large cities. . I should say that the most prolific cause of cycling accidents is the slipping of the machine on grassy roads, and it is a curious fact that in the majority of cases injury is inflicted on the left side, showing that in most cases the riders fall to the left.

AN IMPROVED VALVE.

It In So Countracted That All the Parts May Be Readily Replaced When Necessary.

A valve for preumatic tires has recently been parented, says the Scientific American, which is so constructed that all the parts may be readily replaced when necessary. The valve casing is designed to be inserted through the rubber nipple extending from the tire and is provided with exterior ribs to retain it in place. An outwardly extending flauge on the upper portion of the casing obviates the danger of forcing the easing too far into the nipple. On the outside of the nipple a supporting and strengthening thimble is fitted. The ensing is interiorily

hreaded, and at the base of the readed interior a valve seat is medi A valve carrier having an exerior screw thread is received within the casing and carries an inner ffexwe tube having an integral flap valve which, normally inclined, takes a firm scat against the valve carrier. The ping or sup for closing the valve casing is threaded and longitudinally sintted. Pivoted near its end in the siot is a tongue which may be eaused to open the valve for deflating the tires. When it is desired to permit the air to escape the tongue is allowed to fall from its normal position, so that the smaller and of the tongue will ass through the valve carrier by screwing the plug or cap inward to unseat the valve. The essential features of the invention are the improved flap sulve, the upper flauge on the casing. which prevents the inner end of the casing from coming into contact with the opposite side of the tire and the novel deflating derice.

British Insurance Companies Becoming Bather Asslous About Their Bierele Risks.

The enormous increase in the number of fatal eyeling accidents is caus-

ing the leading insurance companies great uneasizess. In conversation with an official of an accident insurance company whose dury lies more directly with the eyeling department of the company, a

London Daily Mail representative endeavored to ascertain why the death roll was growing so fast. "As far as our experience goes." he said, "there has been a steady increase in the number of cycling accidents during the last two years, but this year they have gone up with a bound. Of course, you may say that such a state of affairs is the natural outcome of the vast increase in the number of recruits to the eveling army. But the

increase in the number of eyeling accidents is far, far in excess of the increase in the number of riders, and many of the insurance companies are on the point of greatly increasing the premiums for evclists. "I suppose it can mainly be accounted for by the fact that so many ladies evele nowadays. I do not mean to insinuate that the fair wheelwomen are

more reckless than their male relatives, but by nature most women are more nervous and less decisive than men, and in a tight corner, which man's coolness and promptness would carry him through, a woman's indecision and timidity fail. "We find too, that the actual num-

ber of accidents that occur on country. roads is greater than the number

"Another cause is the tendency for mere novices to ride brakeless bicycles. Nearly all the fatalities on dangerous hills in the holiday season have been due to this. I notice that a well-known cyclist remarked recently that in his opinion the safest place
